

## Reference Standards

Biopure, an affiliate of Romer Labs®, offers a wide variety of reference standards for mycotoxin analysis. Biopure assures the high quality and purity of mycotoxin standards offered through in-house production, synthesis, purification and analysis with 'state-of-the-art' equipment. The reference standards are available in both liquid, for ease and readiness of use, as well as in crystalline forms. Biopure offers also Matrix Reference Materials (MRM) for DON in maize and will continue to extend this product line.

## Mycotoxin Analytical Service

For over 20 years, Romer Labs® has proven to be a fast, accurate, and reliable partner in mycotoxin analysis. We provide analytical service for mycotoxins globally through our offices in the USA, Austria and Singapore. Our analytical program covers more than 20 different mycotoxins and employs the latest technologies available (HPLC, LC-MS, GC-MS).

### USA

#### Aflatoxins

B1,B2,G1,G2 & M1

#### A-Trichothecenes

T-2 Toxin  
HT-2 Toxin  
Diacetoxyscirpenol (DAS)  
Neosolaniol

#### B-Trichothecenes

Nivalenol  
Deoxynivalenol (DON)  
3-Acetyl DON  
15-Acetyl DON  
Fusarenon-X

#### Fumonisin B1,B2 & B3

#### Zearalenone

#### Zearalenol

#### Ochratoxin A

#### Sterigmatocystin

#### Patulin

#### Cyclopiazonic Acid

#### Moniliformin

#### Oosperein

#### Silage/Mixed Feed Screen

#### Export Testing Package

#### Mycotoxin Grain Screen

#### Mold Counts and Identification

### Austria

#### Aflatoxins

B1,B2,G1,G2

#### A-Trichothecenes

T-2 Toxin  
HT-2 Toxin  
Diacetoxyscirpenol

#### B-Trichothecenes

Nivalenol  
Deoxynivalenol  
3-Acetyl DON  
15-Acetyl DON  
Fusarenon-X

#### Fumonisin B1 & B2

#### Zearalenone

#### Ochratoxin A

### Singapore

#### Aflatoxins

B1,B2,G1,G2
